

ASTON MARTIN

# EXTREME SPORTS

THE ART OF ASTON MARTIN

# NATURAL BORN *THRILLER*

In a world increasingly constrained By mating the most powerful by convention, the V12 Vantage S is a magnificent maverick: the realisation of a compelling dream in which we endowed our compact, iconic sports car with epic V12 power. What began as a one-off concept, and then overcame apparently impossible engineering challenges to reach production reality, has now made an exhilarating evolutionary step.

The V12 Vantage S has taken a scorching recipe and turned up the heat to become faster, sharper and more aggressive. Capable of 205 mph it is the fastest series production Aston Martin ever. Thanks to an exciting new powertrain that is unique in the Aston Martin range it is also the most driver-focussed.

derivative of our latest generation V12 engine to a new seven-speed Sportshift III automated manual t, transmission, we have created a Vantage of unprecedented ferocity. Together with a new three-stage Adaptive Damping System (ADS), uprated Carbon Ceramic Matrix disc brakes, quicker-witted power steering with two-mode level of assistance and a Sport button that optimises the car's responses and behaviour for on-limit driving, the V12 Vantage S is an uncompromising masterpiece that is born to thrill.

# THOROUGHBRED SPORTS CAR WITH A RACER'S EDGE

The heart of the V12 Vantage S beats with the passion of a purebred racer. And with good reason, for when the original V12 Vantage was launched in 2009 Aston Martin entered a road registered example in the legendary Nürburgring 24-hour race. With few modifications, mandatory safety equipment and slick racing tyres, it scored a historic class victory and finished 21st overall from a starting grid of more than 200 purpose-built racing cars.

Since then the V12 Vantage has become the basis of Aston Martin Racing's formidable V12 Vantage GT3 racer; a car that is winning at the highest level in GT championships around the world.

Exploiting that enviable racing DNA to deliver a heart-pounding driving experience, the new V12 Vantage S fuses the poise, precision and control of a modern racer with the visceral rush and unfiltered tactility of a classic driver's car.

It also packs a greater visual punch thanks to a bold new Carbon-Fibre front grille, which has been honed to optimise the car's aerodynamic balance and increase cooling airflow to the engine. Optional lightweight alloy wheels reduce unsprung weight at each corner and further sharpen the looks, while striking paint and graphic options emphasise its extreme character and racing roots.

# WITHERING FIREPOWER

There has never been an Aston Martin quite like the V12 Vantage S. In fact we are proud to say its top speed of 205 mph makes it the fastest series production model in our 100-year history. The key to this sensational uplift in performance is the unique combination of our latest generation 6.0-Litre V12 engine and seven-speed Sportshift III automated manual transmission.

Peak power and torque increase by 55 bhp and 20 Nm respectively, but performance is further boosted by a more generous spread of torque across a wider rev range. These gains – as much as 40 Nm at 2500 rpm – endow the V12 Vantage S with tremendous low and mid-range muscle. When coupled to the immediacy and perfectly spaced ratios of the paddle-shift gearbox it results in explosive acceleration – 0-60 mph takes just 3.7 sec – and an intoxicating sense of boundless power.

THE QUICKEST VANTAGE EVER

# DRIVING IN ITS PUREST FORM

Created for those who revel in the satisfying pursuit of challenge and reward, the V12 Vantage S is a driver's car in the truest sense of the word. Thriving on commitment, yet crucially not demanding it, this charismatic sports car will seduce you with its performance and immerse you in the absorbing thrill of driving an immensely powerful rear-wheel drive sports car.

As you would expect there is a raft of advanced technology to provide an invisible safety net, but the uprated DSC and ABS systems operate discreetly – their intervention thresholds precisely calibrated to remain very much in the background until their help is required. This mature, purist approach acknowledges that it is you and not the car that has control, leaving you free to enjoy a uniquely organic, tactile driving experience that places you at the epicentre of the action.

NOBLE SAVAGE

Though the V12 Vantage S is unashamedly focussed on driving thrills, it does not compromise on driver comfort. Being an Aston Martin this means an interior boasting quality, style and craftsmanship of the highest order. There are two designs of seat – Sport and Lightweight\* – and a choice of Luxmill leather or Alcantara® and a dramatic range of panel, stitch and stripe designs for the seats and door panels to accentuate such a dynamic character.

Other options include a fabulous Carbon-Fibre facia with complementary door handles and a painted Carbon front grille. Additionally, all exterior brightwork can be specified in a purposeful Black finish to complement the Carbon-Fibre exterior detailing. Optional lightweight alloy wheels come in Silver or Satin Black, while Dark Graphite or Silver motorsportinspired paint schemes make a dramatic statement of intent.

\*Lightweight seats are not available in all markets.

## THE LIMIT IS YOURS

on the road this means huge reserves of performance, high levels of mechanical grip and the reassurance of finely tuned traction, stability and anti-lock systems to maintain a high yet non-intrusive safety margin.

This makes for a completely immersive and satisfying experience that can adapt and evolve thanks to advanced multi-mode suspension and stability control systems. Using these you can select the appropriate level of response and assistance for the conditions or your skill level. Intelligent integration of these systems means throttle response, steering weight, gearshift speed and the intervention thresholds of the

The V12 Vantage S demands respect and delivers unmatched satisfaction in return. When driving ABS and DSC systems are all finely adjusted when you switch from Normal to Sport or Track settings, ABS and DSC systems are all finely or engage Sport mode.

> The difference in character is tangible, as is the increasing reliance on your inputs, yet all the electronic driver aids remain active so mistakes are not harshly punished. Of course being a true driver's car you may also wish to

## **OPTIONS**

### 19" 10-spoke forged alloy wheels

- 1 Graphite painted wheels with diamond-turned finish (standard)
- 2 Liquid Silver painted wheels
- 3 Gloss Black painted wheels with diamond-turned finish

### 19" 10-spoke lightweight alloy wheels

- 4 Silver painted wheels
- 5 Satin Black painted wheels

### **Coloured Brake Calipers**

- 6 Grey
- 7 Red
- 8 Yellow

- 2 Black side window trim surround
- 3 Painted Carbon front grille
- 4 Silver headlamp bezels
- 5 Carbon-Fibre paddle shifts
- 6 Black pedal pads and footrest

### **SPECIFICATIONS**

- Two-seat, two-door Coupe body style
- Extruded bonded aluminium VH body structure Aluminium, magnesium allov, composite and steel body
- Extruded aluminium door side-impact beams
- Halogen projector headlamps (main beam)
- High Intensity Discharge headlamps (dipped beam)
- LED rear lamps
- Clear rear lamps with a Black border
- Carbon-Fibre front splitter and rear diffuser
- Black headlamp bezels <sup>1</sup>

#### Engine

- All-allov, guad overhead camshaft
- 48-valve, 5935 cc V12 Front mid-mounted engine,
- rear-wheel drive Fully catalysed, stainless steel exhaust system with active
- bypass valves Compression ratio 11.1:1
- Max power 421 kW (573 PS/565 bhp) at 6750 rpm
- Max torque 620 Nm (457 lb ft) at 5750 rpm
- Acceleration 0-60 mph in 3.7 seconds 0-100 km/h in 3.9 seconds
- Maximum speed 330 km/h (205 mph)

 Rear mid-mounted. seven-speed 'Sportshift III' automated manual transmission

- Allov torque tube with Carbon-Fibre propeller shaft Limited-slip differential
- Final-drive ratio 3.727:1

#### Steering

- Rack and pinion, speedsensitive Servotronic power-assisted steering. 2.5 turns lock-to-lock
- Column tilt and reach adjustment
- Steering rack with 15:1 ratio

#### Wheels & tyres

- 19" 10-spoke forged allov Graphite painted wheels with diamond-turned finish
- Front: 9 x 19" Pirelli P Zero Corsa 255/35 ZR19
- Rear: 11 x 19" Pirelli P Zero Corsa 295/30 ZR19

#### Suspension

- Front: Independent double wishbones incorporating anti-dive geometry, coil springs, anti-roll bar and monotube adaptive dampers
- Rear: Independent double wishbones with anti-squat and anti-lift geometry, dual-rate coil springs and monotube adaptive dampers
- Three-stage Adaptive Damping System (ADS) with Normal, Sport and Track modes

- Front: Ventilated Carbon Ceramic Matrix discs, 398 mm diameter with six-piston monobloc calipers

- Rear: Ventilated Carbon Ceramic Matrix discs, 360 mm preparation diameter with four-piston monobloc calipers
- Black Brake Calipers
- Dynamic Stability Control (DSC) with Track mode
- Anti-lock Braking System (ABS) with Track mode Flectronic Brakeforce
- Distribution (EBD)
- Traction Control (TC) Hydraulic Brake Assist (HBA)
- Positive Torque Control (PTC)
- Hill Start Assist (HSA)

#### Standard specification

- Full-grain leather interior or full-grain leather and Alcantara® interior
- Piano Black facia trim. centre stack and door pulls
- Alcantara®-trimmed sports steering wheel with Black airbag ring
- Electrically adjustable sports seats with side airbags Memory seats and exterior
- mirrors (three positions) Dual-stage driver/passenger front airbags
- Carbon-Fibre front grille
- Titanium front grille and side strake meshes
- Powerfold exterior heated mirrors
- Heated rear screen Automatic temperature control
- Organic Electroluminescent (OEL) displays
- Trip computer - Cruise control

- Bluetooth® telephone
- Satellite navigation 1 Auto-dimming interior rear view mirror 1
- Auto-dimming interior rear view mirror with garage door opener (USA and
- Rear parking sensors
- Emergency Brake Assist (EBA) Alarm (with volumetric and tilt sensor) and immobiliser
  - locking and boot release - Glass FCU
  - Glass switches
  - Aston Martin Tracking by Cobra (UK only) 4,6
  - LED map reading lights

#### In-car entertainment

- 160 W Aston Martin audio system with six-CD autochanger
- Integrated Apple iPod® connector 5
- USB connector with Waveform Audio Format (WAF), Windows Media Player (WMA) and MPEG (MP3) audio file compatibility

#### **Exterior options**

- 10-spoke lightweight alloy wheels
- Silver painted
- Satin Black painted 10-spoke forged alloy wheels
- Liquid Silver painted - Gloss Black painted with a diamond-turned finish
- Alternative Brake Caliper finish: Grev, Red or Yellow - Pirelli P Zero Tyres

- Black or Silver Graphics Pack – individual body panels or
- Canada only) 1
- Carbon-Fibre side strakes Tyre pressure monitoring Painted Carbon front grille
- Black front grille and side strake meshes Black side window trim Remote control central door
  - surround Black textured tailpipe finisher

#### Pictures and word mark

The cars illustrated in this brochure may include additional options not featured in this brochure or that are only available at extra cost.

#### Updates

Aston Martin Lagonda Limited is constantly seeking ways to improve the specification, design and production of its cars and alterations take place continually. Whilst every effort is made to produce up-to-date literature about our evolving products, this brochure should not be regarded as a guide to any currently available products, options, accessories or specifications, nor does it constitute any offer for sale of any particular car, product, option, accessories and/or services or combination of the same.

This brochure is merely an indication of the kinds of Aston Martin products and services which may be available from time to time. The contents of this brochure represent Aston Martin Lagonda Limited's business as a whole. Text and photographs in this brochure may relate to specifications. options, accessories and/or services that are not available for sale in some countries or

which have been superseded or are otherwise no longer available. Images shown may not be reflective of the final car. according to the weight of and

#### Performance results

Because V12 Vantage S is not yet in production, official fuel consumption figures and CO2 emissions data are not vet available in final form. Any figures quoted are Aston Martin's estimates and as soon as type approval is issued the fuel consumption and CO2 emissions figures will be made available. Tyre choice may also including without limitation, impact on performance results, fuel consumption, CO2 emissions, ride comfort and handling.

Published figures should be used for comparison purposes only and verification should not <u>consent.</u> be attempted on public roads. or implied of performance results, fuel consumption or CO2 emissions.

Aston Martin Lagonda Limited strongly urges that all speed laws be obeyed and that safety belts be worn at all times.

The weight of the car will influence the level of CO2 emitted and as a result, cars with higher levels of specification and factory fit

options may emit higher levels Company details of CO2. However, Vehicle Excise Duty is charged CO2 emissions of the standard car, as published in this

brochure.

All petrol engines are fitted with a catalytic converter.
