ASTON MARTIN GT3 CUP

2013 sees the inaugural running of the Aston Martin GT3 Cup. It is an invitational class within the Aston Martin GT4 Challenge of Great Britain and is a unique opportunity to race these fabulous cars at three prestigious UK venues.

Entries are open to both the Aston Martin DBRS9 and the Vantage GT3 and to commemorate Aston Martin's centenary, each of the races will be held over a duration of either 100 laps or 100 minutes.

The season gets underway at Silverstone in April before moving to Donington in June. The third and final round will form part of the Aston Martin Centenary Festival at Brands Hatch in July. This finale will take place on the historic Grand Prix circuit, among a large field of Aston Martin GT1, GT2, GT3 and GT4 machinery.

At each circuit, the series takes prime position in the paddock with our exclusive Aston Martin VIP Race Centre for drivers and guests to relax between sessions and separate garages for all competitors.

As part of the GT3 Cup, all competitors will need to run under a 105 dB noise limit to comply with circuit regulations. To ensure this is achievable, the supply of a new exhaust system is included in the entrance fee. This efficient new exhaust achieves a high level of silencing with no discernible impact on engine performance or reliability. This exhaust also opens up the potential for these cars to be used in a much wider variety of races, where previously noise was a concern.

2013 GT3 CUP
