

# VANTAGE GT3 - EXCLUSIVE TEST

In 2012 the Vantage GT3 and Super GT secured two championships; 18 race wins; and 30 podium finishes in the ADAC GT Masters, British GT, International GT Open, Japanese Super GT, Brazilian Endurance, Britcar 24hr and Malaysian Super Series.

For 2013, we have made the car even better thanks to its built-in performance, meaning there is no need for expensive annual upgrades. This has helped it to already achieve a podium at the first major event of the year, the Dubai 24 Hours.

You can try the latest car for yourself at an exclusive Aston Martin Racing test at Portimao, Portugal, on the 17 and 18 February. The test will include full support from our engineers.

The Aston Martin Racing works team will also be testing the new Vantage GTE as we prepare for our four car assault on Le Mans and the World Endurance Championship.

To register your interest and apply to test the Vantage GT3, please contact:
