SENIOR ENGINEER – GLAZING

CONTRACT POSITION

Department: Product Development, Body Engineering

Based: Gaydon, Warwickshire

Reporting to: Lead Engineer, Glazing

Job Purpose:

To design and develop Glass (Windscreen, Drop Glass, Quarter Glass, Backlights, Rooflights) for future vehicle programmes.

Key Responsibilities and Tasks:

- Assist with benchmarking AML and competitor Glass systems.
- Support preparation of design briefs and targets for all new components.
- Develop compatible designs from initial concept to production release, in conjunction with Design, Quality, Manufacturing, Purchasing and suppliers.
- Apply failure mode avoidance tools and processes (DoE, DFMEA, DFA etc).
- Support Virtual Series events through to FDJ.
- Support completion of engineering releases to the highest quality and in time.
- Support DV test plan with representative prototype components.
- Ensure PD concerns are resolved to the highest quality and in time.

Qualifications and Experience:

- Engineering degree or equivalent.
- Extensive experience in automotive body engineering is preferred.
- A working knowledge of component manufacturing and tooling requirements.
- Intuitive knowledge of fundamental engineering theory.
- CAD literate (ideally user), preferably IDEAS/NX.
- Self-starting and self-motivated.
- Good organisational skills.

To apply:

Applicants should submit a CV and covering letter to careers@astonmartin.com. Please state your hourly rate and/or salary expectations.
